

Spanish Immersion Preschool Orientation Program

Promoting the development of essential early childhood skills and the Spanish language acquisition.

Flexibility

Children can register every 8 weeks. The kids can attend every day from Monday to Friday or you choose the best day that works for you. Remember, however, the more days your child attends our classes, the more benefits and knowledge they will gain in the language acquisition process.

Community Garden

Our program enjoys the benefits of using an extra tool, our community garden, to explore new and more vocabulary. Our children plant the seeds and later on, they harvest the reward. Our kids gift us the bounties of our Garden of Dreams.

Fun Activities and projects

The kids explore fun activities and projects designed by our own Theme-Based-Project Curriculum. Our unique method approaches our children to learn Spanish through a variety of activities based on ages, strengths, children's individual levels and skills.

Amazing Facility

The City of Santa Monica shares its unique facility at Euclid Park with a comfortable space, especially for our children.

\$ 700 per month

**Attending every day
from Monday to Friday
from 9:00 am to 1:00 pm.**
